Handheld Drone Net Launcher, Portable Physical Drone Capture Tool With 30m Max Capture Range & 3.2m×3.2m Large Interception Net For On-site Low-altitude Drone Catching

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: MYT
- Certification: CNAS、CMA、CAL、ILAC-MRA
- Model Number: DT-12
- Minimum Order Quantity: 1
- Price: Pricing is negotiable based on order quantity
- Packaging Details: 129mm*75mm*75mm (L × W × H)
- Delivery Time: 10 work days
- Payment Terms: TT,LC
- Supply Ability: 1000units per month

Product Specification

- Device Weight: 350g
- Overall Net Size: 3.2 M * 3.2 M (10.2)
- Applicable Scenarios: Handheld / Unmanned Aircraft / Unmanned Vehicle / Robot Dog
- Transportation Safety: Vehicle-grade Safety Certification
- Device Dimensions: 129mm*75mm*75mm
- Control Method: PWM Signal, Switching Power Supply
- Drive Mode: Using Electronic Non-pressure Storage Nitrogen Drive
- Outgoing Speed: <50m/s
- Capture Range: 30m
- Highlight: **Handheld drone net launcher**, **30m range drone capture tool**, **3.2m interception net drone catcher**

Product Description

Handheld Drone Net Launcher 30m Max Capture Range Portable Capture

1 Product Introduction

This DT-12 handheld net launcher is a portable physical drone capture tool built for field response. It delivers up to 30m capture range with a 3.2m×3.2m large net to boost interception success rate. Featuring lightweight 350g main body and fast net release under 50m/s, it supports quick deployment and stable, reliable drone capture for patrol and on-site missions.

2 Device Features and Functions

1) Handheld drone net launcher:
Light handheld design for on-site drone physical capture operation

2) Max 30m capture distance:
Effective capture range up to 30 meters for nearby drone targets

3) Large capture net area:
3.2m*3.2m wide net for high success rate of target interception

4) Fast launching speed:
Net release speed below 50m/s for stable and reliable capture

5) Lightweight 350g main body:
Compact and light weight for easy carry and quick deployment

4 Company profile

Chongqing Miao Yitang Technology Co., Ltd. is a specialized company engaged in anti-drone and unmanned intelligent defense management.

With the technical support from the AI Internet of Things Research Institute of the Chinese Academy of Sciences and collaborations with multiple intelligent AI companies, the company has established research laboratories for AI unmanned field products, accumulating a variety of technical patents.

The company's products are widely applied to unmanned automatic management solutions for various defense and perimeter areas, including AI anti-drone systems and AI unmanned vehicle patrol systems. These systems integrate with multiple technologies such as optoelectronics, radar, vibration, thermal imaging, facial recognition, and radio frequency management, truly achieving a 24-hour uninterrupted anti-drone defense and ground perimeter defense warning system. This allows for cost savings for clients, reduction in human resource allocation, and ensures the safety of clients' lives and property. The outstanding security system has won the company an excellent reputation and created higher value for its partners.

5 Application Scenarios

Incidents such as illegal intrusions, malicious reconnaissance, and privacy violations occur frequently through drones, posing a serious threat to national security, public safety, and personal privacy. Therefore, the development of efficient and portable drone countermeasures technology has become an urgent need to maintain airspace security and ensure social stability.

6 Certification Certificate

7 Customer Service

1) We offer 24 hours service after sales.
2) If there are any usage or quality issues with the product, we provide online technical support to diagnose the cause of the problem.
3) Should you find the products unsatisfactory, kindly return it to us within a period of 3 months from the date of dispatch. Upon receipt and inspection, should the products be found to be free from any damage attributable to human factors, a full refund will be granted. Alternatively, we can engage in discussions to amend the product and subsequently reship the product to you.
