Multi-platform Drone Net Launcher, Universal Drone Capture Net Device Compatible With Handheld, Drone, UGV & Robotic Dog Mounting With Electronic Nitrogen Drive & PWM Control

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: MYT
- Certification: CNAS、CMA、CAL、ILAC-MRA
- Model Number: DT-12
- Minimum Order Quantity: 1
- Price: Pricing is negotiable based on order quantity
- Packaging Details: 129mm*75mm*75mm (L × W × H)
- Delivery Time: 10 work days
- Payment Terms: TT,LC
- Supply Ability: 1000units per month

Product Specification

- Capture Range: 30m
- Overall Net Size: 3.2 M * 3.2 M (10.2)
- Device Dimensions: 129mm*75mm*75mm
- Outgoing Speed: <50m/s
- Applicable Scenarios: Handheld / Unmanned Aircraft / Unmanned Vehicle / Robot Dog
- Transportation Safety: Vehicle-grade Safety Certification
- Device Weight: 350g
- Control Method: PWM Signal, Switching Power Supply
- Drive Mode: Using Electronic Non-pressure Storage Nitrogen Drive
- Highlight: **Drone Net Launcher multi-platform**, **Universal Drone Capture Net Device**, **Electronic Nitrogen Drive PWM Control**

Product Description

Multi-platform Drone Net Launcher Fit Handheld Drone UGV Robotic Dog Mounting

1 Product Introduction

DT-12 multi-platform drone capture launcher supports flexible mounting on handheld bracket, drone, UGV and robotic dog. Adopting non-powder nitrogen drive with zero leakage risk, it comes with instant trigger launch and stable PWM control signal. It works well for unauthorized and FPV drone physical interception for diverse low-altitude operation projects.

2 Device Features and Functions

1) Multi-scenario mounting support:
Compatible with handheld, drone, UGV and robotic dog platforms

2) Universal drone capture net:
Works for FPV and unauthorized drone physical interception

3) Electronic nitrogen drive system:
Non-powder nitrogen drive with zero leakage risk

4) Instant trigger launching:
Quick response trigger for fast target locking and capture

5) Stable PWM control signal:
Support PWM signal switching power supply for integrated system

3 Product Packaging & Display

4 Company profile

Chongqing Miao Yitang Technology Co., Ltd. is a specialized company engaged in anti-drone and unmanned intelligent defense management.

With the technical support from the AI Internet of Things Research Institute of the Chinese Academy of Sciences and collaborations with multiple intelligent AI companies, the company has established research laboratories for AI unmanned field products, accumulating a variety of technical patents.

The company's products are widely used in unmanned automatic management solutions for defense and perimeter areas, like AI anti-drone and unmanned vehicle patrol systems. These systems integrate multiple technologies, achieving 24 hour anti-drone and ground perimeter defense warning. This saves clients' costs, reduces human resource allocation, and safeguards their lives and property. The security system has earned the company a good reputation and created more value for partners.

5 Application Scenarios

Incidents such as illegal intrusions, malicious reconnaissance, and privacy violations occur frequently through drones, posing a serious threat to national security, public safety, and personal privacy. Therefore, the development of efficient and portable drone countermeasures technology has become an urgent need to maintain airspace security and ensure social stability.

6 Certification Certificate

7 Customer Service

1) We offer 24 hours service after sales.
2) If there are any usage or quality issues with the product, we provide online technical support to diagnose the cause of the problem.
3) Should you find the products unsatisfactory, kindly return it to us within a period of 3 months from the date of dispatch. Upon receipt and inspection, should the products be found to be free from any damage attributable to human factors, a full refund will be granted. Alternatively, we can engage in discussions to amend the product and subsequently reship the product to you.
