

Light Weight 2KG Anti Drone Jammer Gun Portable One Handy Operation Strike DR300S

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: MYT
- Model Number: DR300S
- Minimum Order Quantity: 1
- Packaging Details: 25mm*25mm*25mm, 2.5KG
- Delivery Time: 10-20Days
- Payment Terms: L/C, T/T
- Supply Ability: 1000units per month

Product Specification

- Defense Frequency Band: 1.5GHz, 2.4GHz, 5.2GHz, 5.8GHz
- Defense Distance: >800 Meters
- Working Temperature: -40 ~+60
- Carrying Method: Handheld, Waist-mounted, Back Strap
- Battery: Built-in Low-temperature Resistant Battery, Standard With 2 Pieces
- Weight: 2kg (including The Battery)
- Size: 312mm*60mm*224mm(length*width*height)
- Display Screen: Built In Display To Check Battery Level At Any Time
- Highlight: **Portable Anti Drone Jammer Gun, 2kg Anti Drone Jammer Gun, Light Weight anti drone gun**

Product Description

Directional Drone Jammer Light weight anti drone gun DR300S

1,Product Introduction

The DR300S (Hummingbird) is an independently developed lightweight single-soldier device, a powerful tool for drone control within the visual range.

This device operates on the principle of emitting high-intensity electromagnetic waves at specific frequency bands to interfere and counteract the video transmission, data transmission, and positioning signals of drones, forcing unauthorized drones to leave or land. With a total weight of 2kg, compact size, and light weight, this device boasts fast response speed. It can be used independently or in conjunction with drone detection equipment. It is a cost-effective, highly maneuverable portable individual drone countermeasure device, widely applicable in patrol reconnaissance, escort protection, area defense, and other fields.

2, Functional highlight

Military-grade Quality:

Excellent heat dissipation, unfazed by harsh weather conditions.

Long Battery Life:

Rechargeable lithium battery pack, with strong endurance capabilities.

Lightweight Design:

Compact and lightweight, suitable for personal carry.

Strong Environmental Adaptability:

Capable of adapting to complex environments such as high temperatures, extreme cold, and high altitudes.

High Integration:

Highly integrated microwave circuits, with a compact miniaturized antenna design.

Easy Operation:

Can be controlled with one hand, ready to use immediately.

2+2 Strike Frequency Band • 500m-1km Precision Strike
2kg Operable with One Hand • Multiple Ways of Operation

Lightweight design Superior performance Ultra-long battery life One-button trigger Military quality Support customization

product features

- **Ultra lightweight design**
Highly integrated microwave circuit, compact and light, easy to operate with one hand
- **Customized defense frequency**
Customize the 2 + 2 frequency band of the FPV or other special frequency band requirements
- **Humanized accessories design**
Supports three carrying methods: Handheld ,waist strap and shoulder strap, choose according to user needs
- **Low-power consumption, long-standby mode**
Rechargeable lithium battery pack, long battery life, suitable for long-term patrol protection
- **Military quality**
Aviation aluminum shell, withstand high and low temperatures(-40°C~+60°C)
- **Professional after-sales service**
Support personalized customization services, 7 * 24 hours online

performance index

Defense frequency band	1.5GHz, 2.4GHz, 5.2GHz, 5.8GHz (Optional option)
Defense distance	> 800 Meters
Working temperature	-40°C~+60°C
Carrying method	Handheld, waist-mounted, back strap...
Battery	Built-in low-temperature resistant battery, standard with 2 pieces
Weight	2kg (including the battery)
Size	312mm * 60mm * 224mm (length * width * height)
Display screen	Built-in display to check battery level at any time

3. Specification

DR300S Specification (●yes, ○ no)		
Defense frequency band	1.5GHz, 2.4GHz, 5.2GHz, 5.8GHz	●
Defense distance	>800 Meters	●
Working temperature	-40 ~+60	●

Carrying method	Handheld,waist-mounted,back strap	●
Battery	Built-in low-temperature resistant battery, standard with 2 pieces	●
Weight	2kg (including the battery)	●
Size	312mm*60mm*224mm(length*width*height)	●
Display screen	Built in display to check battery level at any time	●
Material of casing	CNC machining an aluminum alloy material casing	●

4, After-Sales service

Lifetime free model library upgrades, professional 24/7online service, customizable colors and languages.

5, Company profile

Chongqing Miao Yitang Technology Co., Ltd. is a specialized company engaged in anti-drone and unmanned intelligent defense management. With the technical support from the AI Internet of Things Research Institute of the Chinese Academy of Sciences and collaborations with multiple intelligent AI companies, the company has established research laboratories for AI unmanned field products, accumulating a variety of technical patents.

The company's products are widely applied to unmanned automatic management solutions for various defense and perimeter areas, including AI anti-drone systems and AI unmanned vehicle patrol systems. These systems integrate with multiple technologies such as optoelectronics, radar, vibration, thermal imaging, facial recognition, and radio frequency management, truly achieving a 24-hour uninterrupted anti-drone defense and ground perimeter defense warning system. This allows for cost savings for clients, reduction in human resource allocation, and ensures the safety of clients' lives and property. The outstanding security system has won the company an excellent reputation and created higher value for its partners.

6, Certification Certificate

The product has obtained dual certification from the Ministry of Public Security and the National Security Center, and is capable of adapting to various severe incidents, possessing military-grade quality.

7.Partnership Portfolio

Our products are designed for a variety of public safety scenarios and have long provided customized product services to the military and public safety departments, earning an excellent reputation in practical operations.

8, Paking and Delivery

Supports various logistics methods including shipping, air freight, water transport, and express delivery, covering logistics in 90% of the global regions.
