

Military Drone Defense Equipment with 60MHz to 6GHz Radio Signal Analysis and Up to 10000m Jamming Distance for 24-hour Unmanned Operation

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: MYT
- Certification: CNAS、CMA、CAL、ILAC-MRA
- Model Number: DR200AB-2
- Minimum Order Quantity: 1
- Price: Pricing is negotiable based on order quantity
- Packaging Details: 54mm*74mm*40mm, 70KG
- Delivery Time: 20days
- Payment Terms: TT,LC
- Supply Ability: 1000units per month

Product Specification

- Detection Response Time: <2s
- Power Supply: AC/DC Adapter
- Jamming Distance: Up To 10000m
- Unmanned Operation: 24-hour Unmanned Defense Capability
- Lateral Accuracy: 3
- Detection Range: 1Km, 2Km, 3Km
- Strike Distance: 2km、 3km、 5km
- Color: White
- Antenna Type: High-gain Directional Antennas
- Detection Bands: 400-1500MHz、 2200-2500MHz、 5100-5900MHz
- Display: LCD Screen For Viewing Device Status
- Operating Temperature: -40 -+60
- Highlight: **drone detection and jamming fixed, fixed drone detection system, military drone detection system**

Product Description

DR200AB-2 Fixed Military Anti-Drone System

Directional drone jammer and fixed drone defense equipment with comprehensive drone detection and positioning capabilities.

Product Overview

Chongqing Miao Yi Tang Technology Co., Ltd. is a cutting-edge enterprise developed through collaboration between the Internet of Things Research and Development Center of the Chinese Academy of Sciences, Sichuan University Zhisheng Software Co., Ltd. (002253), and a dedicated founding team backed by a \$12 million investment.

System Functions

- Frequency-based UAV detection and monitoring
- Complete drone detection, location, identification, and tracking capabilities
- Automatic detection and alarm triggering within effective range
- Integrated drone detection and interference with unattended operation
- Identification of mainstream UAV manufacturers and models
- Automatic drone type recognition with continuous database updates
- Automatic interference to force drones to land or return, preventing entry into controlled areas
- Weather-resistant operation with 24/7 functionality
- Rapid installation and deployment on designated vehicles
- Safe operation without interference to human body or electronic equipment

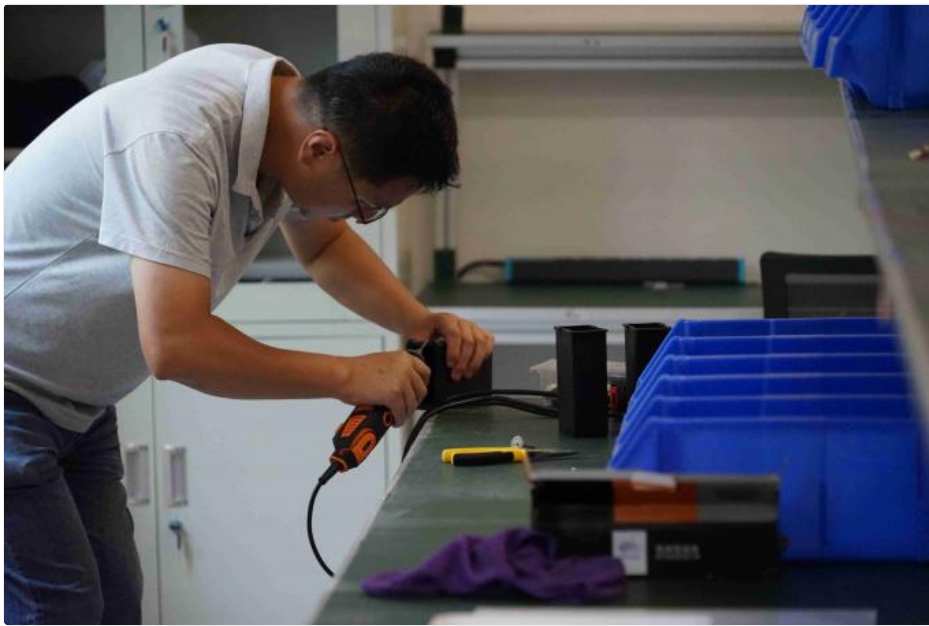

Technical Specifications

Specification	Value	S t a t u s	Additional Details

Detection , identification distance	5km-10km	●	
Neutralization distance	1km-5km	●	
Detection Azimuth	≤10°(tracking) ≤ 3°(hovering)	●	
Detection frequency range	70MHz-6GHz	●	
Key detection frequencies	900MHz, 1.5GHz, 2.4GHz, 5.8GHz	●	
Defense frequency bands	700-840MHz, 840-930MHz, 1050-1280MHz, 1350-1450MHz, 1550-1620MHz, 2400-2485MHz, 5150-5350MHz, 5725-5850MHz	○	410-480MHz 650-850MHz 850-1080MHz 1080-1200MHz 1200-1340MHz 1340-1500MHz 1560-1620MHz 2300-2450MHz 2450-2600MHz 4000-4300MHz 5100-5300MHz 5700-5950MHz 5950-6200MHz
Expandable defense band range	400M-6GHz full band customizable	●	
Counteraction distance	3km (depending on conditions)	●	
Lateral accuracy	3	●	
Operating temperature	-40 -+60	●	
Weight	15kg+25kg	○	15kg+50kg
Dimensions	666mm×400mm(height×radius), 500mm×460mm×233mm(length×width×height)	●	

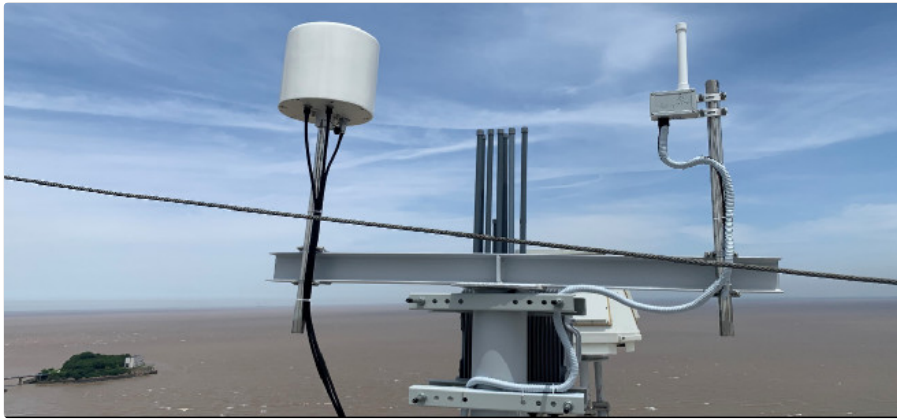

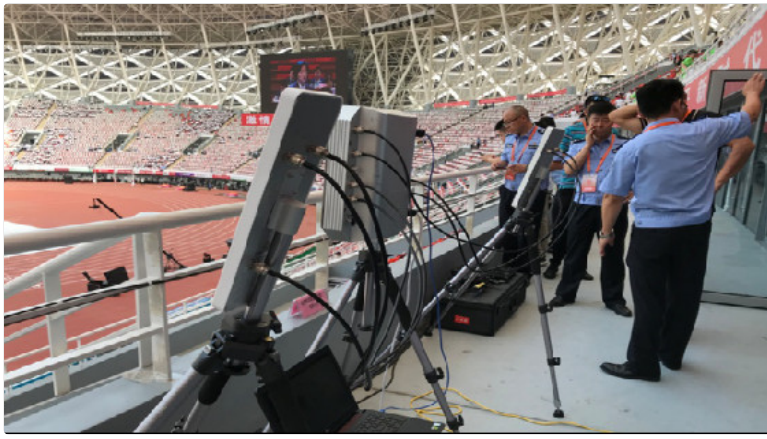

Company Mission

Our mission is to enable intelligent detection, behavior analysis, situation assessment, and precise response across all security facets within ground and low-altitude environments. By transitioning from passive to active defense strategies and fostering a paradigm shift from partial to comprehensive protection, we aim to elevate anti-intrusion security systems to new heights.

Partnership Portfolio

Packaging and Delivery

CUSTOMER SERVICE

- * Fast and patient communication: professional sales reply immediately
- * Fast delivery: usually 2-7 days
- * Flexible Safe shipping: fast by air or sea with cheap freight
- * Customer-friendly: complete user manual and exact video training provided
- * After sales service: one year warranty and life time technical support
