

## MX450pro FPV Drone with 12m/s High Speed 10KM Digital Image Transmission and 28MIN Endurance

### Our Product Introduction

for more products please visit us on [chinaantidrone.com](http://chinaantidrone.com)

#### Basic Information

- Place of Origin: China
- Brand Name: MYT
- Certification: CNAS、CMA、CAL、ILAC-MRA
- Model Number: MX450 Pro
- Minimum Order Quantity: 1
- Price: Pricing is negotiable based on order quantity
- Packaging Details: Packing size 500x405x130mm
- Delivery Time: 10 work days
- Payment Terms: TT,LC
- Supply Ability: 1000units per month

#### Product Specification

- Model: MX450pro
- Number Of Axis: 4quad
- Image/video Transmission Distance: 5-10KM
- Control Distance: 5-10KM
- Flight Speed: 12m/s
- Flight Altitude: 0-500m
- Maximum Take-off Altitude: 3000m
- Arm Material: Nylon + Fiber
- Endurance Time: 28MIN
- Charger: 3s High Voltage With Current 3A Balanced Charge
- Symmetrical Motor Wheelbase: 450mm
- Dimensions Of The Drone Without Propellers: 361x361x106mm

## Product Description

### MX450pro High-Speed FPV Drone

Advanced 4-quadcopter drone featuring 12m/s high speed, 10KM digital image transmission, and 2K HD camera capabilities for professional training and aerial operations.

#### Product Overview

The MX450 PRO is an upgraded multi-functional training drone with open-source architecture, high-intensity construction, and precision engineering. Features include 28-minute endurance, 10KM digital video/image transmission, FPV system, 2K HD distortion-free camera, 1080P video streaming, and integrated lighting and loudspeaker systems.

#### Key Features

- High strength and impact resistance construction
- High precision GPS positioning system
- 10KM digital image and video transmission range
- First Person View (FPV) system
- 28-minute super long battery life
- Multipurpose thrower capability
- High volume megaphone for audio projection
- Integrated bottom lighting system

#### Technical Specifications

Model	MX450pro
Number of Axis	4 Quad
Image/Video Transmission Distance	5-10KM
Symmetrical Motor Wheelbase	450mm
Control Distance	5-10KM

Dimensions (Without Propellers)	361x361x106mm
Flight Speed	12m/s
Dimensions (With Propellers)	496x496x106mm
Flight Altitude	0-500m
Packing Size	500x405x130mm
Maximum Take-off Altitude	3000m
Empty Payload Weight	650g
Propeller Material	Nylon + Fiber
Propeller Size	9 inches
Arm Material	Nylon + Fiber
Battery Capacity	4200mAh
Endurance Time	28 minutes
Battery Voltage	4.35V*3
Charger	3S high voltage with 3A balanced charge
Battery Weight	250g

### Support & Services

MX450pro provides comprehensive technical support and services with 24/7 availability. Our experienced technical team offers remote support, installation and setup services, maintenance and repair services, and customized solutions to meet specific operational requirements.
