

Portable Directional Drone Jammer Man Anti Drone Gun 8 Frequency Bands Handy Drone Jamming 2000M Equipment DR3006

Our Product Introduction

for more products please visit us on chinaantidrone.com

Basic Information

- Place of Origin: China
- Brand Name: MYT
- Certification: CNAS、CMA、CAL、ILAC-MRA
- Model Number: DR3006
- Minimum Order Quantity: 2 units
- Packaging Details: 75cm*41cm*22cm 11kg
- Delivery Time: 10 work days
- Payment Terms: L/C, T/T
- Supply Ability: 500units per month

Product Specification

- Color: Black
- Countermeasure Range: $\geq 2000\text{M}$ (Distance From The Unmanned Aircraft To The Device Is 1500m)
- Countermeasure Frequency: 400MHz-1.5GHz, 2.4GHz, 5.8GHz Bands:
- Expandable Bands: 433MHz、700MHz、1.4 GHz etc
- Stand By: $\geq 24\text{h}$
- Operating Temperature: -40°C - $+60^{\circ}\text{C}$
- Battery: Built In Low-temperature Resistant Battery, Standard With 2 Units
- Weight: 4kg(including Battery)
- Display: LCD Screen For Viewing Device Status
- Dimensions: 50cm14cm7cm(LWH)
- Highlight: **portable directional drone jammer, man anti drone gun, directional drone jammer man**

Product Description

UAV Control System Man portable defense system Hand held drone jamming equipment DR3006

1, Product Introduction

The DR300 is a handheld pure countermeasure device and also the single-soldier device with the longest striking distance. It forces the forced landing or expulsion of low-altitude, slow-moving, and small drones by interfering with their flight control, video transmission, and navigation signals.

2, Functional highlight

Countermeasure Frequencies are Diverse

6 countermeasure frequency bands, covering a complete range of drone models.

Outstanding Jamming for Frequency Hopping and Spread Spectrum Drones

Prominent interference effect on drones that use frequency hopping and spread spectrum technologies.

Personalized Customization

Supports customization services for attack frequency bands, casing colors, languages, etc.

Flexible Expansion

External rail for mounting scopes, navigation deception, pilot location devices, and more.

AI Learning

Can be equipped with a drone signal collection module for easy expansion of the drone model library.

Military-grade Quality

The entire body is made of aviation aluminum casing, resistant to extreme temperatures, supporting operation between -40°C and +60°C.

Instant Operation

Supports both fixed and handheld forms, with second-level response and easy operation.

3, Specification

DR3006 Specification (● yes, ○ no)			
Color	Black	●	
Detection bands	400-1500MHz,2200-2500MHz,5100-5900MHz	○	
Detection range	≥2km(depending on conditions)	○	
Detection response time	<2s	○	
Countermeasure bands	800 MHz,900MHz,1.2GHz,1.5GHz,2.4GHz,5.2GHz,5.8GHz	●	
Expandable bands	433MHz,700MHz,1.4 GHzetc.	●	
countermeasure range	≥2km (depending on conditions)	●	
Standby time	≥24h	●	
operating temperature	-40 -+60	●	
Networking methods	SIM card, eSIM	●	
Alarm methods	Sound and indicator light	●	
Battery	Built-in low-temperature resistant battery, standard with 2 units	●	

weight	<7kg(including battery)	●	
Dimensions	50cm14cm7cm(LWH)	●	
Material of casing	CNC machining an aluminum alloy material casing	●	
Display	LCD screen for viewing device status	●	

2) Battery Charging

The battery has a charging port on the side. After connecting it to the included charger, you can charge the battery.

Rear View of the Device Main Unit

4, After-Sales service

Lifetime free model library upgrades, professional 24/7online service, customizable colors and languages.

5, Certification Certificate

6, Company profile

Chongqing Miao Yi Tang Technology Co., Ltd. is a cutting-edge enterprise forged through collaboration between the Internet of Things Research and Development Center of the Chinese Academy of Sciences, Sichuan University Zhisheng Software Co., Ltd. (002253), and a dedicated founding team backed by a \$12 million investment.

Leveraging the robust scientific research capabilities of the Chinese Academy of Sciences and the industry-defining expertise of Sichuan University, MYT technology is dedicated to pioneering advancements in the national security domain through the application of Internet of Things and artificial intelligence technologies. Our focus lies in AIoT research and development, spearheading the creation of an independent AIoT cloud+edge computing system architecture. This breakthrough architecture facilitates the seamless integration of heterogeneous perception information—such as electromagnetic, optoelectronic, visual, and location data—culminating in a comprehensive three-dimensional defensesystem against intrusion.

Our mission is to enable intelligent detection, behavior analysis, situation assessment, and precise response across all security facets within ground and low-altitude environments. By transitioning from passive to active defense strategies and fostering a paradigm shift from partial to comprehensive protection, we aim to elevate anti-intrusion security systems to new heights.

7,Partnership Portfolio

Our products are designed for a variety of public safety scenarios and have long provided customized product services to the military and public safety departments, earning an excellent reputation in practical operations.

8,Paking and Delivery

Supports various logistics methods including shipping, air freight, water transport, and express delivery, covering logistics in 90% of the global regions.
