

## LightWeight 2KG Anti Uav Drone Jammer Gun Strike Low Frequency Hopping And Spread Spectrum DR300S4

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: MYT
- Model Number: DR300S4
- Minimum Order Quantity: 1
- Packaging Details: 25mm\*25mm\*25mm, 2.5KG
- Delivery Time: 10-20Days
- Payment Terms: L/C, T/T
- Supply Ability: 1000units per month

### Product Specification

- Defense Frequency Band: 1.5GHz, 2.4GHz, 5.2GHz, 5.8GHz
- Defense Distance: >800 Meters
- Working Temperature: -40 ~+60
- Carrying Method: Handheld, Waist-mounted, Back Strap
- Battery: Builtin Low-temperature Resistant Battery, Standard With 2 Pieces
- Weight: 2kg (including The Battery)
- Size: 312mm\*60mm\*224mm(length\*width\*height)
- Display Screen: Built In Display To Check Battery Level At Any Time
- Highlight: **2kg anti uav drone jammer,**  
**2kg portable anti drone jammer,**  
**1.5ghz anti uav drone jammer**

## Product Description

### Directional Drone Jammer Light weight anti drone gun DR300S4

#### 1,Product Introduction

The DR300s is a lightweight, single-soldier device independently developed by Zhongke ZhiPeng. While ensuring countermeasure capabilities, it highly integrates microwave circuits and compact small antennas, making it a powerful tool for controlling drones within visual range.

#### 2,Functional highlight

##### Lightweight Design

Highly integrated microwave circuits and compact small antennas make it small and lightweight, weighing less than 2KG, and easy to operate with one hand.

##### Superior Performance

Designed for interference and countermeasures against low-frequency frequency hopping and spread spectrum drones, as well as navigation frequencies.

##### Long-lasting Battery Life

Equipped with a rechargeable lithium battery pack for strong endurance.

##### One-Touch Activation

Few buttons, simple operation, and instant activation.

##### Customization Support

Supports customization services for attack frequency bands, casing colors, languages, etc.

**2+2 Strike Frequency Band • 500m-1km Precision Strike**  
**2kg Operable with One Hand • Multiple Ways of Operation**

Lightweight design   Superior performance   Ultra-long battery life   One-button trigger   Military quality   Support customization

### product features

- **Ultra lightweight design**  
Highly integrated microwave circuit, compact and light, easy to operate with one hand
- **Customized defense frequency**  
Customize the 2 + 2 frequency band of the FPV or other special frequency band requirements
- **Humanized accessories design**  
Supports three carrying methods: Handheld ,waist strap and shoulder strap, choose according to user needs
- **Low-power consumption, long-standby mode**  
Rechargeable lithium battery pack, long battery life, suitable for long-term patrol protection
- **Military quality**  
Aviation aluminum shell, withstand high and low temperatures(-40°C~+60°C)
- **Professional after-sales service**  
Support personalized customization services, 7 \* 24 hours online

### performance index

Defense frequency band	1.5GHz, 2.4GHz, 5.2GHz, 5.8GHz (Optional option)
Defense distance	> 800 Meters
Working temperature	-40°C~+60°C
Carrying method	Handheld, waist-mounted, back strap...
Battery	Built-in low-temperature resistant battery, standard with 2 pieces
Weight	2kg (including the battery)
Size	312mm * 60mm * 224mm (length * width * height)
Display screen	Built-in display to check battery level at any time

### 3,Specification

DR300S4 Specification (●yes, ○ no)		
Defense frequency band	1.5GHz, 2.4GHz, 5.2GHz, 5.8GHz	●
Defense distance	>800 Meters	●
Working temperature	-40 ~+60	●
Carrying method	Handheld,waist-mounted,back strap	●

Battery	Built-in low-temperature resistant battery, standard with 2 pieces	●
Weight	2kg (including the battery)	●
Size	312mm*60mm*224mm(length*width*height)	●
Display screen	Built-in display to check battery level at any time	●
Material of casing	CNC machining an aluminum alloy material casing	●

#### 4, After-Sales service

Lifetime free model library upgrades, professional 24/7 online service, customizable colors and languages.

#### 5, Company profile

Chongqing Miao Yi Tang Technology Co., Ltd. is a cutting-edge enterprise forged through collaboration between the Internet of Things Research and Development Center of the Chinese Academy of Sciences, Sichuan University Zhisheng Software Co., Ltd. (002253), and a dedicated founding team backed by a \$12 million investment.

Leveraging the robust scientific research capabilities of the Chinese Academy of Sciences and the industry-defining expertise of Sichuan University, MYT technology is dedicated to pioneering advancements in the national security domain through the application of Internet of Things and artificial intelligence technologies. Our focus lies in AIoT research and development, spearheading the creation of an independent AIoT cloud-edge computing system architecture. This breakthrough architecture facilitates the seamless integration of heterogeneous perception information—such as electromagnetic, optoelectronic, visual, and location data—culminating in a comprehensive three-dimensional defense system against intrusion.

Our mission is to enable intelligent detection, behavior analysis, situation assessment, and precise response across all security facets within ground and low-altitude environments. By transitioning from passive to active defense strategies and fostering a paradigm shift from partial to comprehensive protection, we aim to elevate anti-intrusion security systems to new heights.

#### 6, Certification Certificate

The product has obtained dual certification from the Ministry of Public Security and the National Security Center, and is capable of adapting to various severe incidents, possessing military-grade quality.

## 7,Partnership Portfolio

Our products are designed for a variety of public safety scenarios and have long provided customized product services to the military and public safety departments, earning an excellent reputation in practical operations.

## 8,Paking and Delivery

Supports various logistics methods including shipping, air freight, water transport, and express delivery, covering logistics in 90% of the global regions.
