

Man Portable Handheld Drone Detector Defense Recognizes Multiple Models Low False Alarm Rate Strong Endurance

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: MYT
- Model Number: DR4002
- Minimum Order Quantity: 1 units
- Price: USD450-1000(Negotiate based on the quantity of the order)
- Packaging Details: 38cm*28cm*13cm 2.77kg
- Delivery Time: 10 work days
- Payment Terms: L/C, T/T
- Supply Ability: 1000units per month

Product Specification

- Technical Methods: Radio Frequency Spectrum Perception And Deep Learning Technology
- Supported Frequency Bands: 2.4GHz, 5.8GHz
- Detection Radius: 0.7km - 1.2km (varies Depending On The Environment And Drone Model)
- Detection Angle: 360°
- Working Time: 5 Hours
- Operating Temperature: -40°C To +60°C
- Weight: 500g
- Dimensions: L*W*H 200mm*60mm*40mm without Antenna
- Highlight: **portable handheld drone detector, man handheld drone detector, man portable drone detector**

Product Description

Handheld Drone Detector Man portable defense system Portable drone detection equipment DR4002

1, Product Introduction

DR400 based on radio frequency spectrum sensing and deep learning technology, achieves detection and identification of suspicious signal sources. It does not generate any electromagnetic signals during operation. When a drone is detected, it alerts the duty personnel with sound and light signals, prompting them to take immediate measures.

2, Functional highlight

Recognizes Multiple Models

Capable of identifying mainstream, Wi-Fi FPV (First Person View) drones, and other civilian models.

Low False Alarm Rate

The false alarm rate is less than once a day.

Strong Endurance

Equipped with high-quality batteries for long working hours.

Compact and Lightweight

Small in size, light in weight, and easy to carry with you.

Passive Detection

Does not actively emit electromagnetic signals, environmentally friendly, and highly covert.

Durable and Robust

Metal casing with reinforced design, shock-resistant and drop-proof.

3, Specification

DR4002 Specification (● yes, ○ no)		
Technical Methods	Radio Frequency Spectrum Perception and Deep Learning Technology	●
Supported Frequency Bands	2.4GHz, 5.8GHz	●
Detection Radius	0.7km - 1.2km (varies depending on the environment and drone model)	●
Detection Angle	360°	●
Working Time	5 hours	●
Operating Temperature	-40°C to +60°C	●
Weight	500g	●

Dimensions	L*W*H:200mm*60mm*40mm(without antenna)	●
------------	--	---

4, After-Sales service

Lifetime free model library upgrades, professional 24/7 online service, customizable colors and languages.
