

Drone Detector Portable FPV Detection and Video Transmission Capture Device Anti Drone System

Our Product Introduction

for more products please visit us on chinaantidrone.com

Basic Information

- Place of Origin: China
- Brand Name: MYT
- Model Number: DR400-E
- Minimum Order Quantity: 1 unit
- Delivery Time: 10 work days
- Payment Terms: L/C,T/T
- Supply Ability: 1000units per month

Product Specification

- Detection Radius: $\geq 3\text{km}$
- Video Transmission Interception Distance: $\geq 1\text{km}$
- Size: Size
- Battery Life: $\geq 6\text{h}$ (host); $\geq 10\text{h}$ (wrist Watch)
- Highlight: perimeter detection systems customizable, precise perimeter detection systems, precise perimeter intrusion detection system

Drone Detector

Portable FPV Detection and Video Transmission Capture Device

Anti Drone System

1,Product Introduction

The FPV Detection and Video Transmission Capture Device integrates the functions of full-frequency detection, video transmission signal detection, display and control, video capture, and video storage in one unit. It can accurately identify drones such as quadcopters, fixed-wing, DIY drones, FPV and other drones in complex electro-magnetic environments, and generate sound, light, and vibration alarms. The device is suitable for various individual duty scenarios such as daily patrols, protection of important targets, team combat, investigation and evidence collection, etc.

2,Functional highlight

- 1) Full-frequency-band Detection
- 2) Video Storage
- 3) Full Frequency Coverage of FPV Drones
- 4) Video Capture
- 5) Team Collaboration
- 6) Portable Design

3, Specification

Feature	Details
Detection Type	Mainstream drones and most FPV, DIY drones, etc.
Detection Frequency Bands	Supports customized scanning of 70MHz-6.2GHz, default bands include 400MHz, 800MHz, 900MHz, 1.2GHz, 1.4GHz, 2.4GHz, 5.2GHz, 5.8GHz (others can be customized)
Detection Radius	≥3km (good views and electromagnetic environment)
FPV Video Transmission Signal Detection	Support the detection of all analog video transmission signals within the 300MHz-6GHz frequency bands (supports customization)
Video Transmission Interception Distance	≥1km (good views and electromagnetic environment)
Team Linkage Alarm	≥500m (open and unobstructed environment)
Detection Response Time	≤3s (8 frequency bands)
Detection Principle	Spectrum scan, spectrum feature identification
Alarm Mode	Sound, vibration, light
Storage Space	32G memory card
Screen Size	7-inch touch screen
Power Supply Mode	Lithium battery
Battery Life	≥6h (host); ≥10h (wrist watch)
Host Device Size	198mm142mm52mm (LengthWidthHeight)

4, After-Sales service

1. We offer 24 hours service after sales
2. If there are any usage or quality issues with the product, we provide online technical support to diagnose the cause of the problem.
3. Should you find the products unsatisfactory, kindly return it to us within a period of 3 months from the date of dispatch. Upon receipt and inspection, should the products be found to be free from any damage attributable to human factors, a full refund will be granted. Alternatively, we can engage in discussions to amend the product and subsequently reship the product to you.

5, Business Partner

Afreican Parks Counter-UAV Strategic Partnership

Park Manager or Delegated Manager	Procurement Officer/Po	Finance Manager/Controller
Habteyesus Mathewos TADESSE	Chantal KABIBAHOU	Virgile HOUNGBEDJI

6, Certification Certificate

7, Company profile

Chongqing Miao Yitang Technology Co., Ltd. is a specialized company engaged in anti-drone and unmanned intelligent defense management.

With the technical support from the AI Internet of Things Research Institute of the Chinese Academy of Sciences and collaborations with multiple intelligent AI companies, the company has established research laboratories for AI unmanned field products, accumulating a variety of technical patents.

The company's products are widely applied to unmanned automatic management solutions for various defense and perimeter areas, including AI anti-drone systems and AI unmanned vehicle patrol systems. These systems integrate with multiple technologies such as optoelectronics, radar, vibration, thermal imaging, facial recognition, and radio frequency management, truly achieving a 24-hour uninterrupted anti-drone defense and ground perimeter defense warning system. This allows for cost savings for clients, reduction in human resource allocation, and ensures the safety of clients' lives and property. The outstanding security system has won the company an excellent reputation and created higher value for its partners.

8, Paking and Delivery

CUSTOMER SERVICE

- * Fast and patient communication: professional sales reply immediately
- * Fast delivery: usually 2-7 days
- * Flexible Safe shipping: fast by air or sea with cheap freight
- * Customer-friendly: complete user manual and exact video training provided
- * After sales service: one year warranty and life time technical support
