

## 10 Channel Man Pack Drone Jammer Backpack 16dbi Antenna 360°1.5km RF Range Jamming

Our Product Introduction

### Basic Information

- Brand Name: MYT
- Model Number: 10 Channel Man Pack
- Minimum Order Quantity: 1 unit
- Delivery Time: 1000units per month
- Payment Terms: L/C, T/T
- Supply Ability: 1000units per month

### Product Specification

- Highlight: man drone jammer backpack, man drone jammer military, 360° drone jammer backpack

## Product Description

### 10 Channel Man Pack

#### 1, Product Introduction

The manpack matching 10 omni high gain 16dbi antenna offered, and it support single operate or full band working. when full band working the output power reach over 400w, RF distance over 1km. A lithium battery and smart heat sink install besides that can continue working about 40-50 minute. Compared with common the 10 channel manpack build in Lora jammer module that jamming distance broaden and jamming signal enhanced. Shape like manpack convenient for Individual combat fast movement.

#### 2, Functional highlight

10 channel man pack is a 360° full jamming with 10 band. It is type like man pack the shell using High heat resistance material that waterproof and dustproof. By high gain antenna emit jamming signal the drone with remote control relation was cut down, and the drone was returned back. Take account of the real situation, We also offer directional antenna that users can move anywhere. Different solution deal with multiple cases. We devoted to offer best solution for our customers.

High power over 400W

Smart cooling designed and super-thick heat sink build in

360° 1.5km RF range jamming

Matching replace lithium battery lasting time about 40-50mins

Single switch operate or full band working support

Portable carry and move

LORA digital module build in more efficiency

#### 3, Specification

Product Type	Back pack drone jammer
Jamming Range	1000-1500 meter radius (OMNI antenna) 1500-2000 meter range (Panel antenna) (according to the real environment )
Working Channels	Customized 10 channel
Total Output Power	>400W
Body Size	52*40*17 CM
Body Weight	24.65 kg
Outer Antenna	High gain 16dBi Panel directional Antenna
Working Temperature	-20 ~75

Working Humidity	35~95%
Power Consumption	< 960W
Power Input 1	AC100V~240V
Power Input 2	DC24V
Built-in Battery	DC24V 30A
Battery Lasting Time	40-50 minute

#### 4, Support and Services

At Anti Drone Jammers, we provide our customers with comprehensive technical support and services.

Our technical support team is available 24/7 to help with any questions or problems you may have. With years of experience, our team is equipped to handle a variety of issues that may arise. We also offer remote support if needed.

In addition to technical support, we also provide a variety of services to help our customers get the most out of their Anti Drone Jammers. We offer installation and setup services, as well as maintenance and repair services. We also offer customized solutions to meet specific customer needs.

At Anti Drone Jammers, we strive to provide our customers with the best possible service and technical support. If you have any questions or concerns, please don't hesitate to reach out to our team.
