

2.4GHz 50W GaN FPV RF Anti Drone Module Drone Defense Drone Counter Module

Basic Information

- Place of Origin:
- Brand Name:
- 2.4GHz 50W anti-drone module Model Number:

China MYT

10 work days

- Minimum Order Quantity: 2 units
- Negotiable on Quantity • Price:
- Delivery Time:
- L/C, T/T • Payment Terms:
- Supply Ability: 1000units per month

Product Specification

- Package Gross Weight:
- Supply Voltage:
- Input Power:
- Max Output Power:
- Highlight:
- DC24 To 32 V 40-46dBm

0.2kg

- 20W
- 2.4ghz anti drone module, 2.4ghz drone counter module, 50w anti drone module

Our Product Introduction

2.4GHz 50W GaN FPV RF Anti Drone Module Drone Defense Drone Counter Module

1, Product Introduction

2.4GHz anti-drone module 50W:Power and Frequency support Customization from 300MHz to 6GHz, 10W, 20W, 30W, 40W, 50W, 60W, 70W, 80W, 100W, 150W, 200W,GaN transistors are more efficient

2, Functional highlight

The power amplifier uses domestic core key components and can operate normally at low temperatures of -4°C

Small size, light weight, easy to install

Radio frequency technology (RF) is a wireless technology used to transmit data, which can be used in Air propagation of electromagnetic waves, thus achieving wireless transmission

3, Specification

| Selling Units | Single item |
|---------------------|--|
| Single Package Size | 10*5*5cm |
| Weight | 0.2kg |
| Packaging | Each piece is individually packed into a bag and then packed into a carton |

4, After-Sales service

Lifetime free model library upgrades, professional 24/7online service, customizable colors and languages.

5, Company profile

Chongqing Miao Yitang Technology Co., Ltd. is a specialized company engaged in anti-drone and unmanned intelligent defense management. With the technical support from the AI Internet of Things Research Institute of the Chinese Academy of Sciences and collaborations with multiple intelligent AI companies, the company has established research laboratories for AI unmanned field products, accumulating a variety of technical patents.

The company's products are widely applied to unmanned automatic management solutions for various defense and perimeter areas, including AI anti-drone systems and AI unmanned vehicle patrol systems. These systems integrate with multiple technologies such as optoelectronics, radar, vibration, thermal imaging, facial recognition, and radio frequency management, truly achieving a 24-hour uninterrupted anti-drone defense and ground perimeter defense warning system. This allows for cost savings for clients, reduction in human resource allocation, and ensures the safety of clients' lives and property. The outstanding security system has won the company an excellent reputation and created higher value for its partners.

6, Certification Certificate

The product has obtained dual certification from the Ministry of Public Security and the National Security Center, and is capable of adapting to various severe incidents, possessing military-grade quality.
