

Handheld Anti Drone Gun with 2km Jamming Range, SDR Technology, and 360-Degree Detection

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: MYT
- Certification: CNAS、CMA、CAL、ILAC-MRA
- Model Number: Handheld Integrated Anti-UAV Device
- Minimum Order Quantity: 1
- Price: Pricing is negotiable based on order quantity
- Delivery Time: 20days
- Payment Terms: TT,LC
- Supply Ability: 1000units per month

Product Specification

- Highlight: integrated anti uav device,
handheld anti uav device,
handheld drone jamming gun

Product Description

Handheld Integrated Anti-UAV Device / SDR Drone Jamming Gun

This handheld, all-in-one anti-UAV device provides flexible and practical utility for individual operators with no external components required.

Product Introduction

The device supports 360-degree detection up to 3km and targeted countermeasures up to 2km against various UAV types. Equipped with SDR jamming technology and visual aiming assistance, it enables prolonged surveillance, identification, and comprehensive suppression of drones, forcing them to hover, return, or make emergency landings.

As a complement to fixed-site systems for close-range UAV threats, this handheld device is ideal for:

Border regions: national borders, coastlines

Key facilities: military restricted areas, military/industrial sites, prisons, sensitive units

Transportation hubs: airports, ports, railways, highways

Event security: diplomatic activities, major conferences, large-scale cultural/sporting events

Functional Highlights

Integrated Design: Plug-and-play operation with no external parts required

Striking as One: 3km detection range and 2km engagement range

SDR High-Efficiency Jamming: Wide-ranging jamming capabilities including remote control, GNSS, and video/data link jamming

Multi-Mode Engagement: Supports diverse engagement methods compatible with various communication protocols

Visual Identification: Real-time target status display with precise positioning

Protection Investment: SDR architecture ensures flexible, easily upgradable long-term performance

Technical Specifications

| | |
|---------------------|--|
| Working Mode | Detect, identify, locate, monitor, control, network with one system |
| Detection Frequency | 2.4GHz, 5.8GHz, 900MHz (Optional), 1.4GHz (Optional) |
| Jamming Frequency | 900MHz, 1.4GHz, 1.5GHz, 2.4GHz, 5.8GHz, 5.2GHz (Optional), 5G Mobile Communications Frequency (Optional) |
| Effective Range | Detection range up to 3km, Jamming range up to 2km |
| Information Display | 5" LED screen displaying status, no-fly zone information, battery level, working time |
| Dimensions | 700mm x 322mm x 100mm |
| Weight | ≤4.5kg |

After-Sales Service

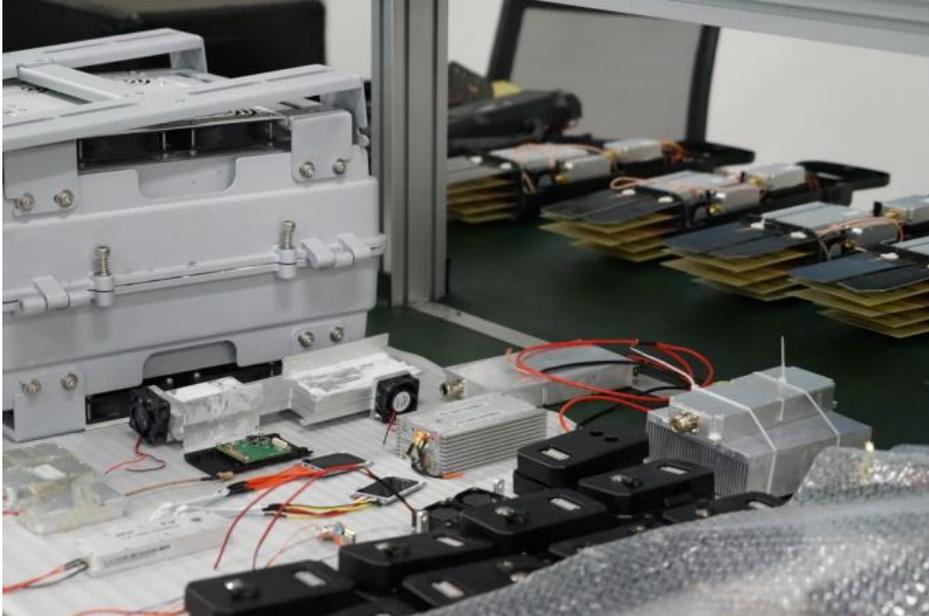

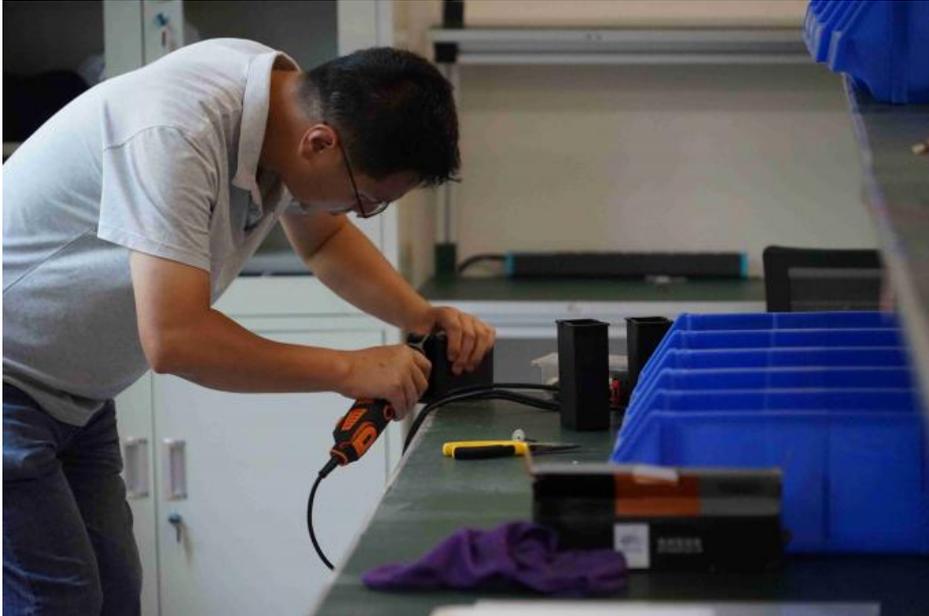

Lifetime free model library upgrades, professional 24/7 online service, customizable colors and languages.

Company Profile

Chongqing Miao Yi Tang Technology Co., Ltd. is a cutting-edge enterprise forged through collaboration between the Internet of Things Research and Development Center of the Chinese Academy of Sciences, Sichuan University Zhisheng Software Co., Ltd. (002253), and a dedicated founding team backed by a \$12 million investment.

Leveraging robust scientific research capabilities, MYT technology pioneers advancements in national security through IoT and artificial intelligence technologies. Our AIoT research focuses on creating an independent cloud+edge computing system architecture that integrates electromagnetic, optoelectronic, visual, and location data into a comprehensive three-dimensional defense system against intrusion.

Our mission enables intelligent detection, behavior analysis, situation assessment, and precise response across ground and low-altitude environments, transitioning from passive to active defense strategies.

Certification & Compliance

The product has obtained dual certification from the Ministry of Public Security and the National Security Center, and is capable of adapting to various severe incidents, possessing military-grade quality.

Partnership Portfolio

Our products are designed for various public safety scenarios and have long provided customized product services to military and public safety departments, earning an excellent reputation in practical operations.

Packaging & Delivery

Supports various logistics methods including shipping, air freight, water transport, and express delivery, covering logistics in 90% of global regions.
