

## 433Mhz 20W Drone Counter Module GaN RF Power Amplifier Detect Module for Anti Drone System FPV defense

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: MYT
- Model Number: 433Mhz 20W GaN Anti Drone Module
- Minimum Order Quantity: 1
- Price: Negotiable on Quantity
- Delivery Time: 10 work days
- Payment Terms: L/C, T/T
- Supply Ability: 10000 units per month

#### Product Specification

- Frequency: 433Mhz
- Power: 20W
- Supply Voltage: DC 27-28V
- Product Size: 29.7\*131\*15.5mm
- Highlight: 20w drone counter module,  
drone counter module gan,  
433mhz fpv drone gps module

## Product Description

### 433mhz 20W Drone Counter Module GAN RF Power Amplifier Detect Module for Anti Drone System FPV defense

#### 1, Functional highlight

433mhz 20W Drone Counter Module GAN RF Power Amplifier Detect Module for Anti Drone System FPV defense

## 2, Specification

|                                   |                                |
|-----------------------------------|--------------------------------|
| Place of Origin                   | Jiangxi, China                 |
| Brand Name                        | MYT                            |
| Product Name                      | RF power amplifier module(GaN) |
| Frequency                         | 400MHZ(428-438)                |
| Output Power                      | 20W                            |
| Frequency and Power Customization | Support                        |
| Max Gain                          | 47 dBm                         |
| Voltage                           | 24-28V                         |

|                |                 |
|----------------|-----------------|
| Product Size   | 29.7*131*15.5mm |
| Product Weight | 136 g           |

3, After-Sales service

Lifetime free model library upgrades, profesdional 24/7online service, customizable colors and languages.

4, Certification Certificate

5, Company profile

Chongqing Miao Yitang Technology Co., Ltd. is a specialized company engaged in anti-drone and unmanned intelligent defense management. With the technical support from the AI Internet of Things Research Institute of the Chinese Academy of Sciences and collaborations with multiple intelligent AI companies, the company has established research laboratories for AI unmanned field products, accumulating a variety of technical patents.

The company's products are widely applied to unmanned automatic management solutions for various defense and perimeter areas, including AI anti-drone systems and AI unmanned vehicle patrol systems. These systems integrate with multiple technologies such as optoelectronics, radar, vibration, thermal imaging, facial recognition, and radio frequency management, truly achieving a 24-hour uninterrupted anti-drone defense and ground perimeter defense warning system. This allows for cost savings for clients, reduction in human resource allocation, and ensures the safety of clients' lives and property. The outstanding security system has won the company an excellent reputation and created higher value for its partners.

## 7, Partnership Portfolio

Our products are designed for a variety of public safety scenarios and have long provided customized product services to the military and public safety departments, earning an excellent reputation in practical operations.

## 8, Paking and Delivery

Supports various logistics methods including shipping, air freight, water transport, and express delivery, covering logistics in 90% of the global regions.
