

## Portable Anti Drone Equipment BX1 C1 with 700-1020 MHz Frequency and 1000-1500 mm Jamming Range in 1.8kg Lightweight Design

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: MYT
- Certification: CNAS、CMA、CAL、ILAC-MRA
- Model Number: BX1 C1
- Minimum Order Quantity: 1
- Price: Pricing is negotiable based on order quantity
- Delivery Time: 15-20 days
- Payment Terms: TT,LC
- Supply Ability: 1000units per month

### Product Specification

- Weight: 1.8kg
- Frequency: 700-1020 MHz
- Jamming Range: 1000-1500 Mm
- Dimensions: 22.5 \* 8.5 \* 4.5 Cm
- Highlight: portable anti drone equipment, directional drone jammer portable, directional anti drone equipment

## Product Description

### Directional Drone Jammer Portable Anti-Drone Equipment for Individual Soldiers BX1 C1

The BX1 C1 is a portable anti-drone device designed for individual soldiers, utilizing advanced digital ultra-high frequency broadband seamless jamming technology. This sophisticated equipment effectively suppresses drone signals by emitting interference signals in the same frequency bands used by drones.

#### Advanced Technology & Performance

This intelligent system automatically recognizes various types and frequency bands of drone signals and initiates countermeasures without human intervention. The jamming technology causes drones to lose control and forces them to land safely. Built with reliable electronic components and robust structural design, the device features excellent anti-jamming capabilities, shock resistance, and temperature tolerance, ensuring stable operation in diverse complex environments.

#### Technical Specifications

Specification	Value
Power	40 Watts
Frequency	700-1020 MHz
Jamming Range	1000-1500 mm
Power Supply	DC 28V
Endurance	60 minutes
Battery	25.9V / 5A
Dimensions	22.5 * 8.5 * 4.5 cm
Weight	1.8 kg

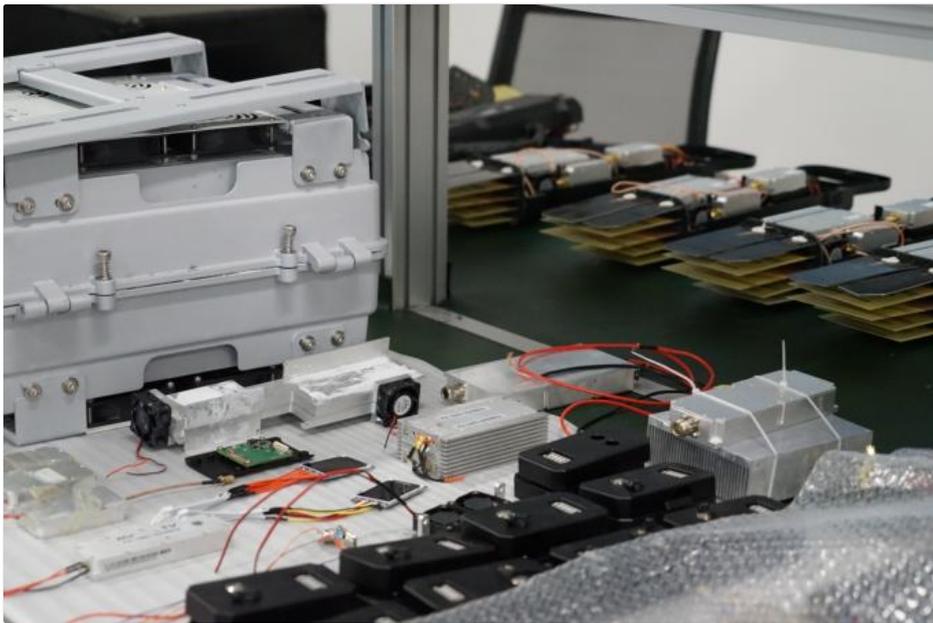

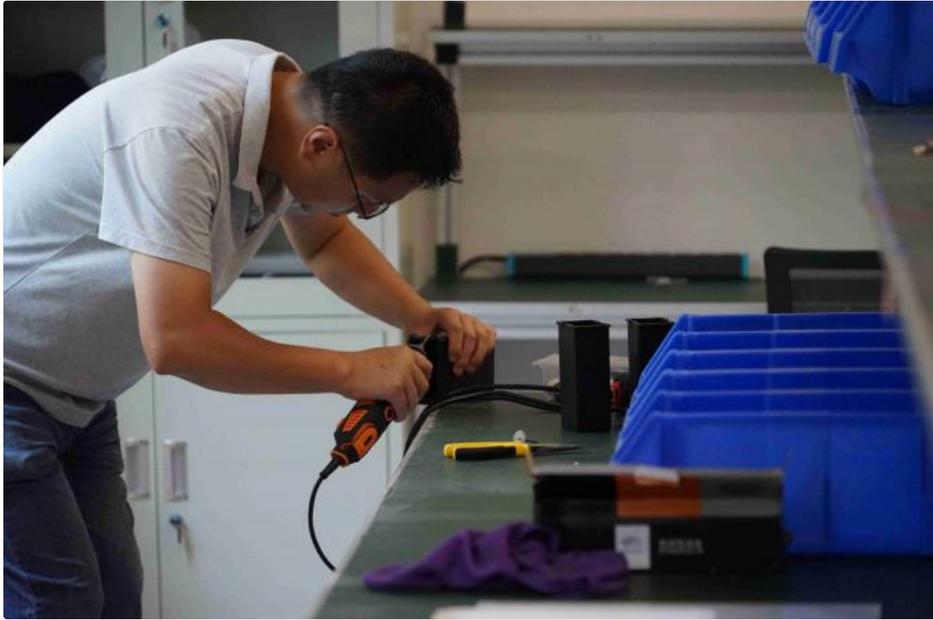

#### After-Sales Service

- Lifetime free model library upgrades
- Professional 24/7 online technical support
- Customizable colors and language options

#### Manufacturer Profile

Chongqing Miao Yitong Technology Co., Ltd. specializes in anti-drone and unmanned intelligent defense management systems. With technical support from the AI Internet of Things Research Institute of the Chinese Academy of Sciences and collaborations with multiple intelligent AI companies, the company maintains advanced research laboratories for AI unmanned field products and holds numerous technical patents.

The company's comprehensive security solutions integrate multiple technologies including optoelectronics, radar, vibration sensors, thermal imaging, facial recognition, and radio frequency management. These systems provide 24-hour uninterrupted anti-drone defense and ground perimeter security, enabling cost savings, reduced human resource requirements, and enhanced protection of client assets.

### Certification & Compliance

The BX1 C1 has obtained dual certification from the Ministry of Public Security and the National Security Center. This military-grade equipment is designed to adapt to various severe operational scenarios and meets the highest quality standards for defense applications.

## Partnership Portfolio

Our products are designed for diverse public safety scenarios and we have established long-term partnerships with military and public safety departments. Our customized product services have earned an excellent reputation through proven performance in practical operations.

### Packaging & Delivery

## CUSTOMER SERVICE

- \* Fast and patient communication: professional sales reply immediately
- \* Fast delivery: usually 2-7 days
- \* Flexible Safe shipping: fast by air or sea with cheap freight
- \* Customer-friendly: complete user manual and exact video training provided
- \* After sales service: one year warranty and life time technical support
