

Directional Drone Jammer 3 channel Shield-Type Anti-Drone Device D3

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: MYT
- Model Number: D3
- Minimum Order Quantity: 1 units
- Price: Negotiable
- Delivery Time: 15-20 days
- Payment Terms: L/C, T/T
- Supply Ability: 500units per month

Product Specification

- Frequency: 433MHz~6GHz
- Jamming Range: 800-1500m
- Dimensions: 27 * 18.5 * 10 Cm
- Weight: Approximately 2.56 KG
- Highlight: **directional drone detector, 6ghz drone detector, 6ghz directional drone jammer**

Directional Drone Jammer 3 channel Shield-Type Anti-Drone Device D3

1, Product Introduction

The D3 is a 3-frequency directional shield-type drone countermeasure device, equipped with a built-in lithium battery, and is easy to operate. It can achieve single-frequency control. The device uses narrowband jamming technology and radio frequency suppression technology to cut off the connection between the drone and the remote controller, thereby forcing the drone to return to its base.

After the drone is controlled, the image transmission channel is cut off, and it will not be able to transmit video, aerial photos, nor receive any instructions from the ground remote operator, thus achieving protection of key areas and preventing the leakage of privacy.

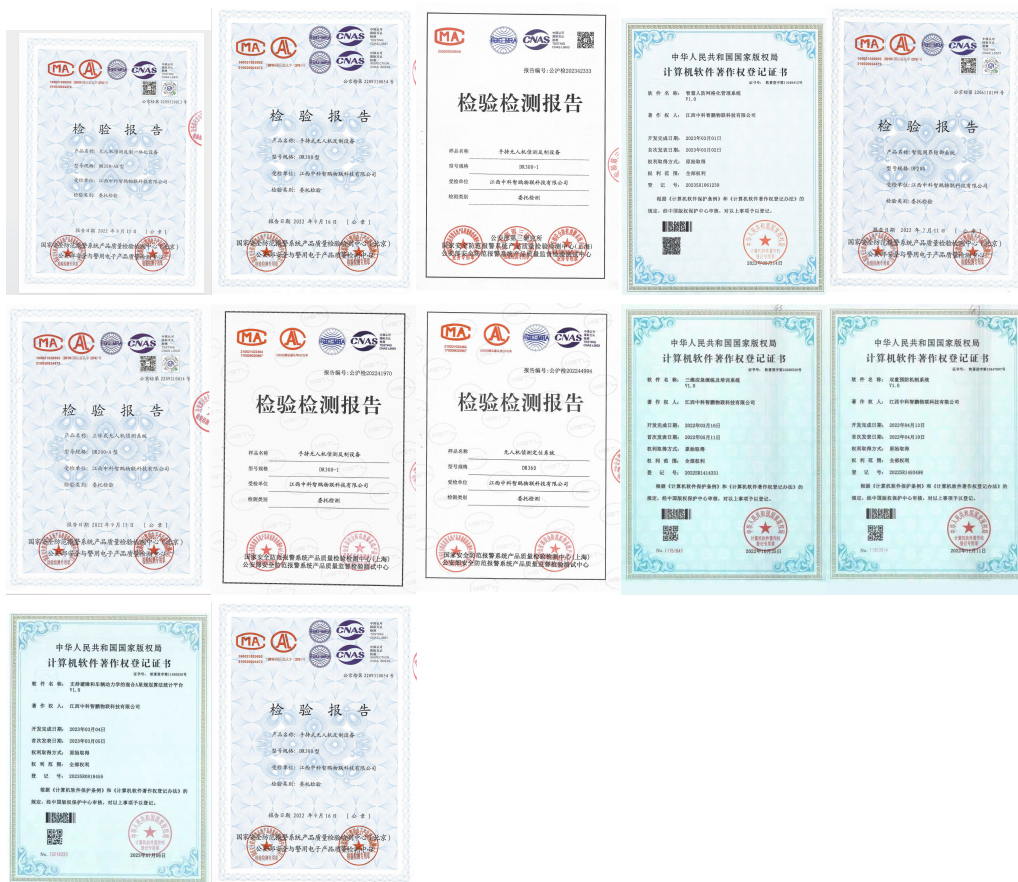

2, Specification

Power	60 Watts
Frequency	433MHz - 6GHz
Jamming Range	800 to 1500 meters
Power Supply	AC 220V / DC 24-28V
Device Endurance	50 minutes
Battery	25.9V / 5A
Dimensions	27 * 18.5 * 10 cm
Weight	Approximately 2.56 KG

3, Certification Certificate

The product has obtained dual certification from the Ministry of Public Security and the National Security Center, and is capable of adapting to various severe incidents, possessing military-grade quality.

4, Partnership Portfolio

Our products are designed for a variety of public safety scenarios and have long provided customized product services to the military and public safety departments, earning an excellent reputation in practical operations.

5. Paking and Delivery

Supports various logistics methods including shipping, air freight, water transport, and express delivery, covering logistics in 90% of the global regions.
