

Anti Drone Module 5200MHz-5800MHz Active Module 10W For Portable Anti Drone Gun

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: MYT
- Model Number: 900MHz 50W anti-drone module
- Minimum Order Quantity: 2 units
- Delivery Time: 10 work days
- Payment Terms: L/C, T/T
- Supply Ability: 1000units per month

Product Specification

- Supply Voltage: DC 24-32V
- Specification: 109.2*39.4*16.5mm
- Required Power Supply: 1A
- Neutralization Method: Radio Band Jamming
- Single Gross Weight: 0.119kg
- Frequency Band: 5200MHz-5800MHz Customized
- Power Flatness: 40dBm
- Storage Temperature: -40 To +85
- Rf Connector: SMA
- Compatibility: Compatible With Various Anti-drone Device
- Power: 10W
- Highlight: 10w anti drone module,
10w drone jamming module

Product Description

Anti Drone Module 5200MHz-5800MHz Active Module 10W For Portable Anti Drone Gun

1, Product Introduction

5200MHz to 6000MHz anti-drone module 10W

The power amplifier uses domestic core key components and can operate normally at low temperatures of -25°C

Small size, light weight, easy to install

Radio frequency technology (RF) is a wireless technology used to transmit data, which can be used in Air propagation of electromagnetic waves, thus achieving wireless transmission

2, Functional highlight

3, Specification

Product Name	RF power amplifier module (GaN)
Frequency	900MHZ (810-900/860-930/800-900/750-850/900-1000)
Output Power	50W
Frequency and Power Customization	Support
Max Gain	47 dBm
Voltage	24-32V
Product Size	29.7*131*15.5mm
Product Weight	183 g

4, After-Sales service

Lifetime free model library upgrades, profesdional 24/7online service, customizable colors and languages.

5, Company profile

Chongqing Miao Yi Tang Technology Co., Ltd. is a cutting-edge enterprise forged through collaboration between the Internet of Things Research and Development Center of the Chinese Academy of Sciences, Sichuan University Zhisheng Software Co., Ltd. (002253), and a dedicated founding team backed by a \$12 million investment.

Leveraging the robust scientific research capabilities of the Chinese Academy of Sciences and the industry-defining expertise of Sichuan University, MYT technology is dedicated to pioneering advancements in the national security domain through the application of Internet of Things and artificial intelligence technologies. Our focus lies in AIoT research and development, spearheading the creation of an independent AIoT cloud+edge computing system architecture. This breakthrough architecture facilitates the seamless integration of heterogeneous perception information-such as electromagnetic, optoelectronic, visual,

and location data—culminating in a comprehensive three-dimensional defensesystem against intrusion.

Our signal jammers are now widely used across various industries, particularly for countermeasures against drones. We are continuously evolving our products based on actual conditions, and our research and development of jamming modules for drone countermeasures has always been at the forefront of the industry.

6, Certification Certificate

The product has obtained dual certification from the Ministry of Public Security and the National Security Center, and is capable of adapting to various severe incidents, possessing military-grade quality.

7, Partnership Portfolio

Our products are designed for a variety of public safety scenarios and have long provided customized product services to the military and public safety departments, earning an excellent reputation in practical operations.
