

High Frequency 4GHz-6.3GHz Anti Drone Module with 100W-120W Power and Compact Design for Drone Jamming

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: MYT
- Certification: CNAS、CMA、CAL、ILAC-MRA
- Model Number: 4000MHz to 6300MHz 100-120W anti-drone module
- Minimum Order Quantity: 1
- Price: Pricing is negotiable based on order quantity
- Delivery Time: 10 work days
- Payment Terms: TT,LC
- Supply Ability: 1000units per month

Product Specification

- Required Power Supply: 10A
- Single Gross Weight: 0.7kg
- Power Flatness: 50dBm
- Power: 100-120W
- Frequency: 4GHz-6.3GHz Customized
- Supply Voltage: DC 24-32V
- Specification: 175*84*24mm
- Neutralization Method: Radio Band Jamming
- Storage Temperature: -40 To +85
- Rf Connector: SMA
- Compatibility: Compatible With Various Anti-drone Device
- Highlight: 100w anti drone module,
100w drone jamming module

Product Description

High Frequency Band 4G-6.3G Anti-Drone Module

100W-120W RF power amplifier module designed for advanced anti-drone countermeasures operating in the 4GHz to 6.3GHz frequency range.

Product Introduction

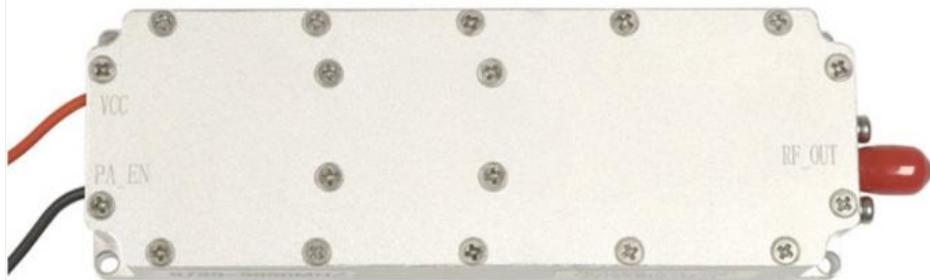

This 100-120W anti-drone module operates in the 4GHz to 6.3GHz frequency band, providing targeted countermeasures against modern drone threats.

Key Advantages

- Target Specificity: Precisely targets specific signal types and devices within high-frequency ranges
- Operational Efficiency: Effectively interferes with advanced communication systems operating in high-frequency bands
- Advanced Technology: Incorporates sophisticated jamming technology for modern communication systems
- Reduced Interference: Minimizes impact on lower-frequency operational systems
- Current Technology: Regularly updated to counter the latest communication threats
- Regulatory Compliance: Designed for deployment in regions with specific high-frequency band regulations
- Enhanced Penetration: High-frequency signals effectively penetrate obstacles in various environments
- Compact Design: Smaller components enable portable and space-efficient jammer designs
- Multi-Band Capability: Can affect multiple frequency bands simultaneously for increased versatility
- Rapid Response: Quick frequency switching provides immediate response to evolving threats

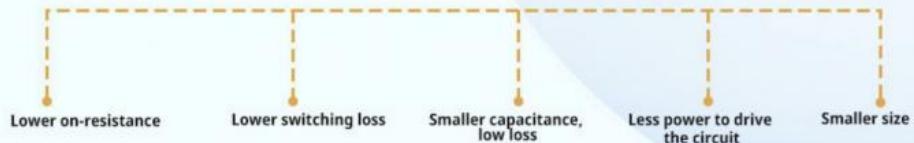

Functional Highlights

Lower power consumption, smaller size

Technical Specifications

Product Name	RF power amplifier module (GaN)
Frequency	900MHz (810-900/860-930/800-900/750-850/900-1000)
Output Power	50W
Frequency and Power Customization	Support
Max Gain	47 dBm
Voltage	24-32V
Product Size	29.7*131*15.5mm
Product Weight	183 g

After-Sales Service

Lifetime free model library upgrades, professional 24/7 online service, customizable colors and languages.

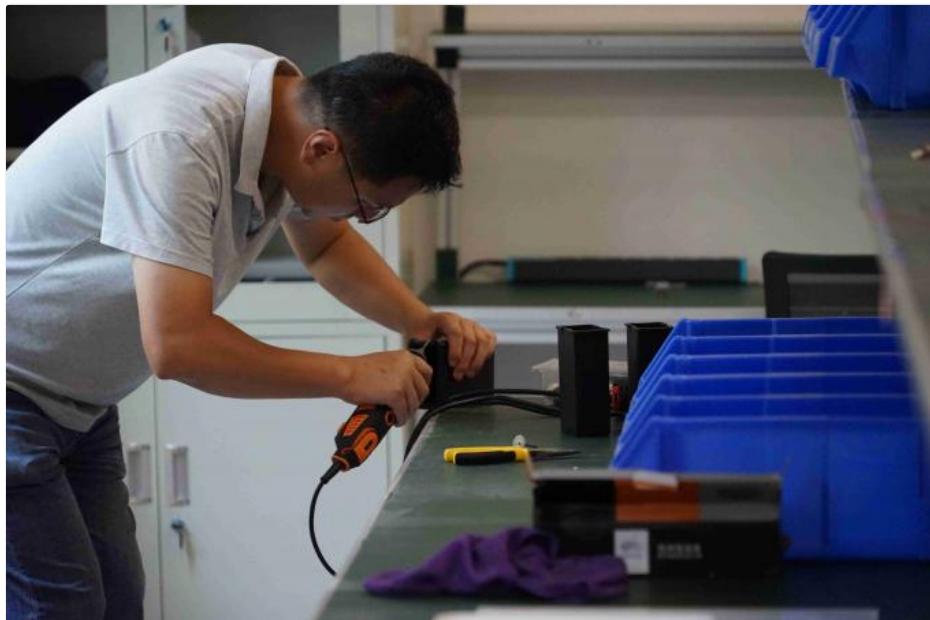

Company Profile

Chongqing Miao Yi Tang Technology Co., Ltd. is a cutting-edge enterprise forged through collaboration between the Internet of Things Research

and Development Center of the Chinese Academy of Sciences, Sichuan University Zhisheng Software Co., Ltd. (002253), and a dedicated founding team backed by a \$12 million investment.

Leveraging the robust scientific research capabilities of the Chinese Academy of Sciences and the industry-defining expertise of Sichuan University, MYT technology is dedicated to pioneering advancements in the national security domain through the application of Internet of Things and artificial intelligence technologies. Our focus lies in AIoT research and development, spearheading the creation of an independent AIoT cloud+edge computing system architecture. This breakthrough architecture facilitates the seamless integration of heterogeneous perception information—such as electromagnetic, optoelectronic, visual, and location data—culminating in a comprehensive three-dimensional defense system against intrusion.

Our signal jammers are now widely used across various industries, particularly for countermeasures against drones. We are continuously evolving our products based on actual conditions, and our research and development of jamming modules for drone countermeasures has always been at the forefront of the industry.

Certification & Compliance

The product has obtained dual certification from the Ministry of Public Security and the National Security Center, and is capable of adapting to various severe incidents, possessing military-grade quality.
