

Portable Handheld Drone Detector Full-Frequency Detection and Video Storage for Investigation and Evidence Collection

Our Product Introduction

for more products please visit us on chinaantidrone.com

Basic Information

- Place of Origin: China
- Brand Name: MYT
- Model Number: DR400-D
- Minimum Order Quantity: 1 unit
- Delivery Time: 10 work days
- Payment Terms: L/C,T/T
- Supply Ability: 1000units per month

Product Specification

- Detection Distance: $\geq 3\text{km}$ (good Views And Electromagnetic Environment)
- Video Transmission Interception Distance: $\geq 1\text{km}$ (good Views And Electromagnetic Environment)
- Team Linkage Alarm: $\geq 500\text{m}$ (open And Unobstructed Environment)
- Size: 198mm142mm52mm (LengthWidthHeight)
- Highlight: Video Storage Handheld Drone Detector, Full-Frequency Handheld Drone Detector, Investigation Handheld Drone Detector

Portable Handheld Drone Detector Full-Frequency Detection and Video Storage for Investigation and Evidence Collection

1,Product Introduction

The FPV Detection and Video Transmission Capture Device consolidates multiple functionalities into a single unit, encompassing comprehensive frequency detection, video transmission signal monitoring, display and control operations, video recording capabilities, and video archiving. This device is adept at precisely recognizing a variety of drones, including quadcopters, fixed-wing models, DIY drones, FPV drones, and others, even within intricate electromagnetic environments. It is equipped to trigger auditory, visual, and tactile alerts. Its versatility makes it well-suited for a range of individual operational contexts, such as routine patrols, safeguarding critical assets, coordinated team engagements, investigative evidence gathering, and more.

2,Functional highlight

- 1) Comprehensive Frequency Monitoring
- 2) Video Archiving
- 3) Broadband Frequency Spectrum for FPV Drones
- 4) Video Recording
- 5) Collaborative Teamwork
- 6) Compact and Mobile Configuration

3, Specification

Feature	Details
Detection Type	Mainstream drones and most FPV, DIY drones, etc.
Detection Frequency Bands	Supports customized scanning of 70MHz-6.2GHz, default bands include 400MHz, 800MHz, 900MHz, 1.2GHz, 1.4GHz, 2.4GHz, 5.2GHz, 5.8GHz (others can be customized)
Detection Radius	≥3km (good views and electromagnetic environment)
FPV Video Transmission Signal Detection	Support the detection of all analog video transmission signals within the 300MHz-6GHz frequency bands (supports customization)
Video Transmission Interception Distance	≥1km (good views and electromagnetic environment)
Team Linkage Alarm	≥500m (open and unobstructed environment)
Detection Response Time	≤3s (8 frequency bands)
Detection Principle	Spectrum scan, spectrum feature identification
Alarm Mode	Sound, vibration, light
Storage Space	32G memory card
Screen Size	7-inch touch screen
Power Supply Mode	Lithium battery
Battery Life	≥6h (host); ≥10h (wrist watch)

Feature	Details
Host Device Size	198mm142mm52mm (LengthWidthHeight)

4, After-Sales service

1. We offer 24 hours service after sales
2. If there are any usage or quality issues with the product, we provide online technical support to diagnose the cause of the problem.
3. Should you find the products unsatisfactory, kindly return it to us within a period of 3 months from the date of dispatch. Upon receipt and inspection, should the products be found to be free from any damage attributable to human factors, a full refund will be granted. Alternatively, we can engage in discussions to amend the product and subsequently reship the product to you.

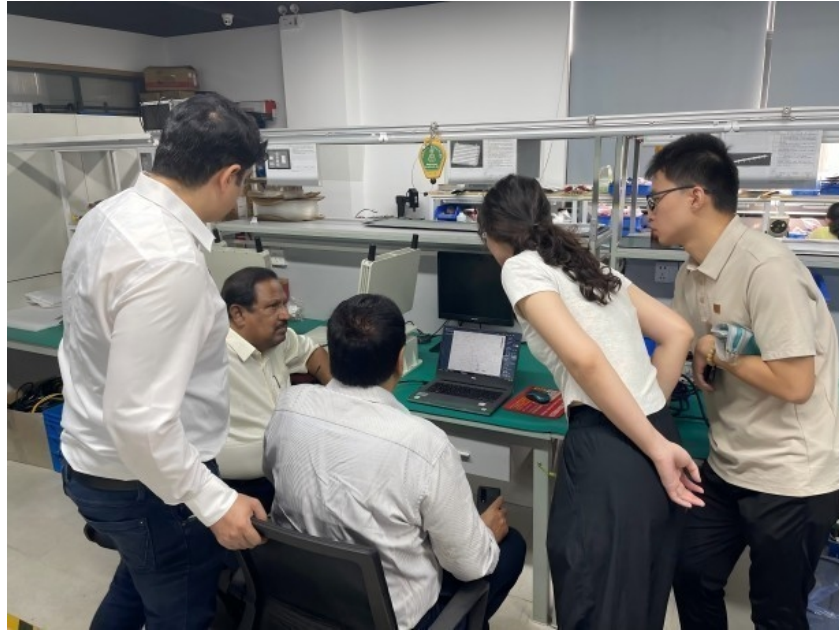

5, Buesiness Partner

Afreican Parks Counter-UAV Strategic Partnership

Park Manager or Delegated Manager	Procurement Officer/Po	Finance Manager/Controller
Habteyesus Mathewos TADESSE	Chantal KABIBAHOU	Virgile HOUNGBEDJI

6, Certification Certificate

7, Company profile

Chongqing Miao Yitang Technology Co., Ltd. is a specialized company engaged in anti-drone and unmanned intelligent defense management. With the technical support from the AI Internet of Things Research Institute of the Chinese Academy of Sciences and collaborations with multiple intelligent AI companies, the company has established research laboratories for AI unmanned field products, accumulating a variety of technical patents.

The company's products are widely applied to unmanned automatic management solutions for various defense and perimeter areas, including AI anti-drone systems and AI unmanned vehicle patrol systems. These systems integrate with multiple technologies such as optoelectronics, radar, vibration, thermal imaging, facial recognition, and radio frequency management, truly achieving a 24-hour uninterrupted anti-drone defense and ground perimeter defense warning system. This allows for cost savings for clients, reduction in human resource allocation, and ensures the safety of clients' lives and property. The outstanding security system has won the company an excellent reputation and created higher value for its partners.

8, Paking and Delivery

CUSTOMER SERVICE

- * Fast and patient communication: professional sales reply immediately
- * Fast delivery: usually 2-7 days
- * Flexible Safe shipping: fast by air or sea with cheap freight
- * Customer-friendly: complete user manual and exact video training provided
- * After sales service: one year warranty and life time technical support
