

Hidden Camera Detection The Ultimate Solution For Detecting Hidden Cameras And Eavesdropping Devices

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: MYT
- Certification: CNAS、CMA、CAL、ILAC-MRA
- Model Number: DT-03
- Minimum Order Quantity: 1
- Price: Pricing is negotiable based on order quantity
- Delivery Time: 10 work days
- Payment Terms: L/C,T/T
- Supply Ability: 1000units per month

Product Specification

- Detection Range: Up To 10 Meters Depending On Device Type And Environmental Conditions
- Frequency Range: 10MHz - 8GHz
- Power Source: Rechargeable Lithium-ion Battery (built-in)
- Battery Life: Up To 8 Hours Of Continuous Use
- Display: 2.8-inch Color TFT LCD
- Dimensions: Compact, Portable Design (exact Dimensions Available Upon Request)
- Weight: Lightweight Construction For Extended Use Comfort
- Storage Temperature: -20°C To 60°C
- Highlight: **hidden camera detector device, handheld eavesdropping device detector, portable drone detector with warranty**

Product Description

DT-03 Hidden Camera Detection Device

1, Product Overview

The DT-03 Hidden Camera Detection Device is a state-of-the-art, multifunctional surveillance detection system for protecting privacy in the connected age. This professional-grade instrument uses advanced detection technologies to identify concealed surveillance devices.

The DT-03 has a high-res display and intuitive interface. It combines eight detection functions in a compact, portable unit. Ideal for travel (hotels, rentals) or sensitive workplaces, it detects hidden cameras, eavesdropping devices, etc.

It has a sleek design and comfortable grip for easy long-term use. Its detection covers 10MHz - 8GHz, ensuring no hidden device escapes detection. With the DT-03, your personal space stays private and secure.

2, Specification

Detection Range	Up to 10 meters depending on device type and environmental conditions
Frequency Range	10MHz - 8GHz
Power Source	Rechargeable lithium-ion battery (built-in)
Battery Life	Up to 8 hours of continuous use
Display	2.8-inch color TFT LCD
Dimensions	Compact, portable design (exact dimensions available upon request)
Weight	Lightweight construction for extended use comfort
Storage Temperature	-20°C to 60°C

3, Features

The DT-03 Hidden Camera Detection Device integrates multiple advanced detection technologies to address a wide range of surveillance threats. Its core Hawk Eye Detection System utilizes advanced optics to precisely pinpoint hidden pinhole cameras behind one-way mirrors within private spaces, presenting the detected positions in real-time through visual display.

Complementing this is a sophisticated Multi-Frequency Wireless Detection system that scans frequencies from 10MHz to 8GHz, encompassing all common surveillance frequencies. It can swiftly identify wireless eavesdropping devices via adjustable visual and audio alerts and offers a continuous monitoring mode. The specialized WiFi/Bluetooth Detection capabilities are able to identify nearby network devices. By leveraging RSSI-based positioning, it can differentiate between normal devices and potential surveillance equipment.

For comprehensive signal monitoring, the DT-03 monitors 2G - 5G cellular networks to detect unauthorized mobile recording devices, providing detailed signal metrics to accurately locate threats. Its Infrared Thermal Imaging Detection can identify electronic devices based on their thermal emissions. It has specialized modes for detecting night vision cameras and highlighting abnormal heat patterns.

Surpassing standard detection capabilities, the Endoscope Camera Detection feature can identify minute surveillance probes in hard-to-access areas using high-sensitivity sensors with directional detection capabilities. All of these activities are supported by a Comprehensive Reporting System that logs detailed information, generates audit reports, and enables data export in multiple formats.

Designed with user convenience in mind, the DT-03 is equipped with a high-resolution color touchscreen display, featuring intuitive operation, multiple alert mechanisms, and customizable settings. Its compact and lightweight design ensures portability, making it an essential privacy protection tool for diverse environments.

4, Application Scenarios

5, Certification Certificate

6, Company profile

Chongqing Miao Yitang Technology Co., Ltd. is a specialized company engaged in anti-drone and unmanned intelligent defense management. With the technical support from the AI Internet of Things Research Institute of the Chinese Academy of Sciences and collaborations with multiple intelligent AI companies, the company has established research laboratories for AI unmanned field products, accumulating a variety of technical patents.

The company's products are widely applied to unmanned automatic management solutions for various defense and perimeter areas, including AI anti-drone systems and AI unmanned vehicle patrol systems. These systems integrate with multiple technologies such as optoelectronics, radar, vibration, thermal imaging, facial recognition, and radio frequency management, truly achieving a 24-hour uninterrupted anti-drone defense and ground perimeter defense warning system. This allows for cost savings for clients, reduction in human resource allocation, and

ensures the safety of clients' lives and property. The outstanding security system has won the company an excellent reputation and created higher value for its partners.

7, Customer Service

- 1). We offer 24 hours service after sales
- 2). If there are any usage or quality issues with the product, we provide online technical support to diagnose the cause of the problem.
- 3). Should you find the products unsatisfactory, kindly return it to us within a period of 3 months from the date of dispatch. Upon receipt and inspection, should the products be found to be free from any damage attributable to human factors, a full refund will be granted. Alternatively, we can engage in discussions to amend the product and subsequently reship the product to you.

CUSTOMER SERVICE

- * Fast and patient communication: professional sales reply immediately
- * Fast delivery: usually 2-7 days
- * Flexible Safe shipping: fast by air or sea with cheap freight
- * Customer-friendly: complete user manual and exact video training provided
- * After sales service: one year warranty and life time technical support
