

Conference Room Jammer With Super-signaling Level Jamming Capabilities Ensures Comprehensive Wireless Security In Confidential Meeting Spaces

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: MYT
- Certification: CNAS、CMA、CAL、ILAC-MRA
- Model Number: DT-09
- Minimum Order Quantity: 1
- Price: Pricing is negotiable based on order quantity
- Delivery Time: 10 work days
- Payment Terms: L/C,T/T
- Supply Ability: 1000units per month

Product Specification

- Signal Types: Mobile Communication, WiFi, Bluetooth Signals
- Coverage Distance: 40 Meters At -65dBm Environment
- Extended Coverage: 100 Meters At -85dBm Environment
- Application: Confidential Venues, Classified Meetings, Examination Rooms, Schools
- Jamming Method: All-mode Jamming Signal Source
- Frequency Control: Automatic Frequency Scanning And Synchronization
- Output Power: 1 Watt
- Frequency Response: Automatic Adjustment Based On Public Network Conditions
- Highlight: **Conference room signal jammer, Wireless security jammer for meetings, Super-signaling level jamming device**

Product Description

DT-09 Conference Room Jammer

1, Product Overview

The Conference Room Jammer is a professional wireless signal control system for secure environments. It uses super-signaling level jamming technology to regulate wireless signals in sensitive areas like confidential venues, meetings, exam halls, and educational institutions.

It has comprehensive wireless signal control functions. With an all-mode jamming signal source, it blocks mobile, WiFi, and Bluetooth signals, creating a secure zone. The device has automatic frequency scanning synced with public networks. It adjusts frequencies and power according to the environment for optimal performance. Its precise jamming and wide coverage make it ideal for various professional settings.

It's environmentally friendly with low energy consumption, low-power operation, and minimal radiation, ensuring safe and sustainable security protection.

2, Specification

Parameter	Specification
Product Name	Conference Room Jammer System
Technology Type	Super-signaling Level Jamming Technology
Application	Confidential venues, classified meetings, examination rooms, schools
Signal Types	Mobile communication, WiFi, Bluetooth signals
Jamming Method	All-mode jamming signal source
Frequency Control	Automatic frequency scanning and synchronization
Output Power	1 Watt
Coverage Distance	40 meters at -65dBm environment
Extended Coverage	100 meters at -85dBm environment
Frequency Response	Automatic adjustment based on public network conditions
Synchronization	Automatic synchronization with public networks
Power Management	Automatic power level adjustment
Precision	Precise jamming targeting

Power Consumption	Low energy consumption
Radiation Level	Low radiation emission
Operation Mode	Green and environmentally friendly
Form Factor	Compact, unobtrusive design
Installation	Easy to install and operate
Dimensions	Suitable for conference room deployment
Power Supply	AC 220V
Power Efficiency	High efficiency power management
Operation	User-friendly control panel
Monitoring	Real-time status monitoring
Configuration	Easy parameter configuration

3, Features

The Conference Room Jammer is a sophisticated wireless signal management solution for sensitive environments. It uses advanced super-signaling jamming technology for security in confidential venues like meeting rooms, exam halls, etc.

It has an all-mode jamming signal source to block mobile, WiFi, and Bluetooth. Automatic frequency scanning adjusts frequencies and power automatically.

With precise jamming and wide coverage (40 meters at -65dBm, 100 meters at -85dBm), it suits various environments.

Designed green, with low energy use, power output, and radiation, it's suitable for enclosed spaces.

Compact and easy to install/operate, with a user-friendly panel, real-time monitoring, efficient power management, and simple parameter config, it's ideal for organizations seeking reliable signal control without complexity.

4, Application Scenarios

5, Certification Certificate

6, Company profile

Chongqing Miao Yitang Technology Co., Ltd. is a specialized company engaged in anti-drone and unmanned intelligent defense management. With the technical support from the AI Internet of Things Research Institute of the Chinese Academy of Sciences and collaborations with multiple intelligent AI companies, the company has established research laboratories for AI unmanned field products, accumulating a variety of technical patents.

The company's products are widely applied to unmanned automatic management solutions for various defense and perimeter areas, including AI anti-drone systems and AI unmanned vehicle patrol systems. These systems integrate with multiple technologies such as optoelectronics, radar, vibration, thermal imaging, facial recognition, and radio frequency management, truly achieving a 24-hour uninterrupted anti-drone defense and ground perimeter defense warning system. This allows for cost savings for clients, reduction in human resource allocation, and

ensures the safety of clients' lives and property. The outstanding security system has won the company an excellent reputation and created higher value for its partners.

7, Customer Service

- 1). We offer 24 hours service after sales
- 2). If there are any usage or quality issues with the product, we provide online technical support to diagnose the cause of the problem.
- 3). Should you find the products unsatisfactory, kindly return it to us within a period of 3 months from the date of dispatch. Upon receipt and inspection, should the products be found to be free from any damage attributable to human factors, a full refund will be granted. Alternatively, we can engage in discussions to amend the product and subsequently reship the product to you.

CUSTOMER SERVICE

- * Fast and patient communication: professional sales reply immediately
- * Fast delivery: usually 2-7 days
- * Flexible Safe shipping: fast by air or sea with cheap freight
- * Customer-friendly: complete user manual and exact video training provided
- * After sales service: one year warranty and life time technical support
