Product Description

Directional Drone Jammer Light weight anti drone gun KZ-21

1, Product Introduction

The KZ-21 (Hummingbird) is an independently developed lightweight single-soldier device, a powerful tool for drone control within the visual range.

This device uses high-intensity specific-frequency electromagnetic waves to interfere with drones' video, data, and positioning signals, forcing unauthorized drones to leave or land. Weighing 2kg, it is compact, lightweight, fast-responding, usable alone or with detection gear. A cost-effective, highly maneuverable portable countermeasure device for patrol, escort, and area defense.

2, Functional highlight

- grade Quality: Excellent heat dissipation, unfazed by harsh weather conditions.
- Long Battery Life: Rechargeable lithium battery pack, with strong endurance capabilities.
- Lightweight Design: Compact and lightweight, suitable for personal carry.
- Strong Environmental Adaptability: Capable of adapting to complex environments such as high temperatures, extreme cold, and high altitudes.
- High Integration: Highly integrated microwave circuits, with a compact miniaturized antenna design.
- Easy Operation: Can be controlled with one hand, ready to use immediately.
